A close-up photograph of a bird's nest. The nest is constructed from a dense layer of dry, yellowish-brown straw and twigs. Five speckled eggs are visible, arranged in two rows. The top row has three eggs, and the bottom row has two. The eggs are light brown with darker brown spots. A bright yellow arrow points from the left towards the eggs. Inside the arrow, the Chinese characters '12天孵化' are written in black. The background is slightly blurred, showing more of the nest's structure.
